UOR #00UR037 - Major Amendment to a Use On Review to allow public recreational structures, including: a softball field, an expanded parking lot, restrooms, a concession stand, a skateboard park, basketball courts, exercise stations, bike paths and lighting, as well as allowing transient amusement enterprises, including carnivals and festivals

ITEM 20

subject property is Tract 24 of the Rapid City Greenway Tracts located north of Rapid Creek, south of New York Street and east of Haines Avenue. The immediate impetus behind this Use on Review is the proposal to establish a public skate board park on the property. However, the master plan also proposes other future improvements including: a parking lot expansion, restroom/concessions building, basketball courts, softball field, exercise course, sidewalks, and relocated portions of the existing bike path.

STAFF REVIEW: Staff has reviewed the site plan submitted by the Public Works Department and has identified additional information which is needed in order to adequately review the proposal. This information is as follows:

- Grading Plan;
- Location of floodplain limits along the west side of the railroad embankment;
- Precise location of floodway zones;
- Location of sanitary sewer main which crosses the subject property (all structures must be kept at least fifteen feet back from the main);
- A specific parking lot plan showing all parking stalls, stall and aisle dimensions, and handicapped parking;
- A landscape plan shall be provided for the parking lot expansion complying with the provisions of the Landscape Ordinance; and,
- Information shall be submitted regarding usage policies of the skateboard park and the basketball courts. Information needs to be submitted as to whether these facilities will be fenced and gated. If the facilities are proposed to be fenced then information needs to be submitted as to whether the facilities will be locked or if they will be open at all times.

Due to the number and nature of outstanding concerns, the Engineering Division has recommended that this Major Amendment to a Use on Review be continued to allow the petitioner to submit the additional information. Staff is recommending that the Use on Review be continued to the November 22, 2000 Planning Commission meeting. In order to be considered at the November 22 meeting all information must be received no later than October 27, 2000.
