REPORT BY	Lisa Seaman

RECOMMENDATION: Staff recommends that the request for a Lot Split be approved.

GENERAL COMMENTS: The petitioner is requesting a Lot Split to allow the construction of a townhouse on the subject property. The subject property is zoned Medium Density Residential which allows townhomes.

STAFF REVIEW: Staff has reviewed the Lot Split request and has requested that the petitioner provide a revised site plan identifying the location of all water and sewer service lines to ensure that individual service lines are provided for both lots. The revised site plan must also include the location of a 40 foot shared driveway and the plat must be revised to reflect non-access easements along the Yucca Drive frontage except for the location of a 40 foot shared access. Engineering Staff has also requested that the site plan include information on the proposed grading adjacent to the townhomes.

The plat submitted with this request identifies 8 foot side and rear lot line utility easements. Staff is requesting that the petitioner revise the plat to provide 8 foot side and rear lot line utility and minor drainage easements.
