RE: Removing on-street parking from west side of Waterloo Street

The construction at Roosevelt Park has most recently initiated [this](#) proposal to remove parking from the west side of Waterloo Street, from E. New York Street to E. Omaha. The current roadway width does not properly accommodate the construction vehicles with parking on both sides. On-street parking on both sides would also be undesirable for the increased traffic expected on Waterloo when the new facilities are in use.

The primary users of this on-street parking are the tenants of the Sundial Apartment complex on the east side of Waterloo. I spoke with the manager of the Sundial Apartments, and she agrees with removing this on-street parking. She said she would tell her new tenants of the upcoming change.

Respectfully,

Douglas Adelman
