South:	Flood Hazard District
East:	Flood Hazard District
West:	Park Forest District
PUBLIC UTILITIES	City sewer and water
DATE OF APPLICATION	12/14/2001
REPORT BY	Vicki L. Fisher

RECOMMENDATION:

Staff recommends that the Initial and Final Development Plan - Planned Residential Development be continued to the January 24, 2002 Planning Commission meeting in order to be heard in conjunction with the associated Preliminary and Final Plat.

GENERAL COMMENTS: The applicant is requesting approval of an Initial and Final Residential Development Plan to allow seven single family residential lots on the subject property. The applicant has also submitted a Preliminary and Final Plat proposing to subdivide the property into a seven residential lot development. (See companion item #01PL110.) The proposed development will be known as Vista Lake Subdivision. Currently, an unoccupied

building is located on proposed Lot 1. At one time the building was the site of the Johnson Siding Volunteer Fire Department.

On November 16, 1998, a Layout Plat was approved to create an approximate one acre lot in the southeast corner of the subject property. In addition, a Master Plan was submitted identifying that the remaining balance would eventually be subdivided into seven lots ranging in size from .5 acres to 11.8 acres. The Master Plan identified one approach located along Jackson Boulevard extending to form an approximate 500 foot long cul-de-sac to serve as access to the property.

On July 16, 2001, the City Council approved a Preliminary and Final Plat to subdivide a four acre portion of the subject property into one lot. The applicant is now proposing to replat the four acre lot as a part of the proposed Vista Lake Subdivision as shown on Preliminary and Final Plat 01PL110.

STAFF REVIEW: Staff is recommending that the associated Preliminary and Final Plat be continued to the January 24, 2002 Planning Commission meeting to allow staff to meet with the applicant to review road alignment and design issues. The proposed grade, slope and radius of the curve(s) of the road do not comply with the minimum requirements of the Street Design Criteria Manual suggests that the applicant should consider significant revisions to the proposed development. As such, staff is recommending that the Initial and Final Planned Residential Development be continued to the January 24, 2002 Planning Commission meeting to be heard in conjunction with the associated Preliminary and Final Plat.
