Re: Major Amendment / 01UR056

Dear Lisa,

I am pleased to inform you that the owners of Rushmore Electric have agreed to install a fence around the existing lattice tower, therefore we will be in full compliance to all conditions of the original Use on Review Application 01UR052 to allow a communication tower (collocation on an existing tower) in the General Commercial Zoning District. The fence contractor will be notified immediately to start construction (Refer to attached bid).

This letter is a request to withdraw the Major Amendment Application 01UR056. Please forward this letter to all Planning Commissioners.

Sincerely,

Kevin Galik

CC Rushmore Electric
