| REPORT BY | Vicki L. Fisher |

STAFF REPORT

May 9, 2002

No. 02SV014 - Variance to the Subdivision Regulations to allow lots more than twice as long as they are wide **ITEM 25**

RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to allow lots more than twice as long as they are wide be continued to the **May 23, 2002** Planning Commission meeting to be heard in conjunction with an associated Preliminary and Final Plat.

GENERAL COMMENTS: The applicant has submitted a Variance to the Subdivision Regulations to allow lots more than twice as long as they are wide. The Variance to the Subdivision Regulations is a companion item to a Preliminary and Final Plat to create 39 residential lots (See file #02PL037.)

The applicant had previously submitted a Layout Plat to create a 389 lot residential development to be known as "Henderson Ranch". The Layout Plat included the subject property and an additional 170 acres located south and west of the property. On March 18, 2002, the City Council acknowledged the applicant's request to withdraw the Layout Plat.

The property is currently void of any structural development. The property is located approximately 1,400 feet north of the intersection of Country Road and Haines Avenue, on the west side of Haines Avenue.

STAFF REVIEW: Staff recommended that the Preliminary and Final Plat be continued to the **May 23, 2002** Planning Commission meeting to allow the applicant to submit a revised drainage plan and to adjust the construction plans to comply with the proposed phasing plan. The revised drainage plan must coordinate proposed flows with the lot layout(s) or the plat must be revised accordingly. Since the lot layout could potentially be revised, staff is recommending that the Variance to the Subdivision Regulations to allow lots more than twice as long as they are wide be continued to the **May 23, 2002** Planning Commission meeting to be heard in conjunction with the associated plat.
