RE: Six Pillars of Character Pavilion Proposal

At the May 21, 2002 meeting the Parks & Recreation Subcommittee took the following action with regard to the site location for the Six Pillars of Character Pavilion proposal:

The Parks & Recreation Subcommittee unanimously recommended approval of Halley Park as the location for the Six Pillars of Character Pavilion due to its central location, high visibility and proximity to the Children's Science Center with the understanding that the project must receive approval under the 11.1 Review process by the Rapid City Historic Preservation Commission. In addition, the project must be reviewed by the Rapid City Planning Commission pursuant to the provisions of 11-6-19 SDCL prior to the initiation of construction.
