| REPORT BY | Vicki L. Fisher |

RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to waive dry sewer,

STAFF REPORT

August 22, 2002

No. 02SV035 - Variance to the Subdivision Regulations to waive dry sewer, pavement, curb and gutter, and sidewalk on the private access easement and to waive dry sewer, curb and gutter and sidewalks on Neva Way as required by Chapter 16.16 of the Municipal Code

ITEM 35

pavement, curb and gutter, and sidewalk on the private access easement and to waive dry sewer, curb and gutter and sidewalks on Neva Way as required by Chapter 16.16 of the Municipal Code be denied without prejudice at the request of the applicant's engineer.

GENERAL COMMENTS:

The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to improve Neva Way and a shared access easement as identified above. The applicant has also submitted a Preliminary and Final Plat to reconfigure two lots as a companion item. (See associated item #02PL078.)

Currently, a single wide mobile home and a garage are located on existing Lot 10A and a shed and a barn are located on Lot 9A Revised. Replatting the property as proposed will result in the shed and barn being located on proposed Lot 10A Revised. Proposed Lot 9A Revised Revised will then be void of any structural development.

On July 13, 2001, the applicant submitted Preliminary and Final Plat #01PL074 to subdivide the subject property as shown on this plat. On August 20, 2001, the City Council denied without prejudice the Preliminary and Final Plat at the applicant's request.

STAFF REVIEW:

The Variance to the Subdivision Regulations application does not include the request to waive the requirement to install water lines. As such, the applicant's engineer has requested that this item be denied without prejudice to allow the applicant to submit a corrected application without paying additional application fee(s).

Staff is recommending that the Variance to the Subdivision Regulations be denied without prejudice as requested by the applicant's engineer.
