No. 02CA063 - Amendment to the Comprehensive Plan to change the future land use designation on a 4.5546 acre parcel of land from Residential to Light Industrial **ITEM 40**

RECOMMENDATION: Staff recommends that the Comprehensive Plan Amendment to change the land use designation on a 4.5546 acre parcel from Residential to Light Industrial be denied without prejudice.

GENERAL COMMENTS: This property is located north of E. St. Patrick Street and south of SD Highway 44. The Comprehensive Plan identifies the subject property as appropriate for Residential land use(s). The property to the north, east and south have been identified in the Comprehensive Plan as appropriate for Residential land use(s). The property to the west is identified in the Land Use Plan as appropriate for Industrial land use(s). This amendment would change the Comprehensive Plan from Residential land use to Light Industrial land use.

STAFF REVIEW: The adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community. In order for the plans to remain viable and to keep pace with a changing market place, periodic adjustments to reflect changing conditions will be required.

The subject property is E. St. Charles Street right-of-way and a portion of E. St. Andrew Street right-of-way and is located in a land use area that is designated Residential. Land surrounding the subject property is zoned Light Industrial District. The subject property was annexed into the City limits on October 20, 2002. Lot O was zoned Light Industrial District in 1989, and all other lots included in this amendment were zoned Light Industrial District in 1996 following annexation of the area. The existing zoning surrounding the subject property is not in compliance with the current Comprehensive Plan. Based on the fact that the subject property is located adjacent to property zoned Light Industrial District, Staff believes that Light Industrial land use is appropriate for this parcel.

Staff recommends that the Comprehensive Plan Amendment be denied without prejudice. Staff will be submitting a Comprehensive Plan Amendment in the near future with a revised legal description.

Staff notes that Comprehensive Plan Amendments do not require direct notification of neighboring property owners; however, South Dakota Codified Law requires that plan amendments be advertised in a local newspaper. The notification requirement has been met.
