No. 03RZ010 - Rezoning from General Agriculture District to General Commercial District ITEM 21

STAFF REVIEW:

Staff has evaluated the proposed rezoning as it relates to the four criteria for the review of the zoning map amendments. A summary of Staff findings is outlined below:

1. *The proposed amendments shall be necessary because of substantially changed or changing conditions of the area and district affected, or the City in general.*

The property is currently zoned General Agriculture District. The General Agriculture District has served as a holding zone until such time as the property is developed. The future extension of Fifth Street and, subsequently the future extension of municipal serves to the area will change conditions within the area to support the extension of commercial development. In addition, Catron Boulevard, a significant east-west arterial connection, is located south of the subject property. It is anticipated that this will be an area of the community that will experience continued growth and development in the immediate and foreseeable future. In addition, the proposed Planned Development Designation will serve as a tool to address the traffic, lighting, noise and visual impact concerns along Catron Boulevard specific to the subject property.

2. *The proposed zoning is consistent with the intent and purposes of this ordinance.*

According to the Zoning Ordinance, the Office Commercial Zoning District is intended "to provide for personal and business services and the general retail business of the City. The location of the property in close proximity to the future tinersection of two major roadways make it a desireable location for general commercial activities serving the general retail business needs of the commmunity. Further, Catron Boulevard is the major gateway between Rapid City and Mount Rushmore, making the area desirable for commercial activities to serve the traveling public.

3. *The proposed amendment will not adversely affect any other part of the City, nor shall any direct or indirect adverse effects result from such amendment.*

Staff does not believe that rezoning this property will result in any adverse impacts in conjunction with the associated Planned Development Designation. The additional review provided by a Planned Residential Development process will insure that any possible adverse impacts are adequately as a part of the development of the site.

4. *The proposed amendments shall be consistent with and not in conflict with the development plan of Rapid City including any of its elements, major road plan, land use plan, community facilities plan, and others.*

The adopted Future Land Use Plan for the South Robbinsdale Neighborhood Area identifies this property as being appropriate for general commercial land uses with a Planned Commercial Development for that portion of the property located within 550 feet of the Catron Boulevard right-of-way. (The applicant has requested that the associated Planned Development Designation apply to the entire 18.34 acres in lieu of limiting the request to

that portion located within 550 feet of the Catron Boulevard right-of-way.) The primary reason for the recommended Planned Development Designation is to mitigate any negative impact the proposed use may have on Catron Boulevard. The Planned Development Designation will officially identify this property as a future Planned Commercial Development.

As of this writing, the receipts from the certified mailing have not been returned nor has the sign been posted on the property. Staff will notify the Planning Commission at the April 24, 2003 Planning Commission meeting if these requirements have not been met. Staff has not received any calls or inquiries regarding this proposal.
