EDUCATION & INFORMATION DIVISION

DATE: April 8, 2003 LF041603-13
TO: Jim Preston, Finance Officer
FROM: Captain Mark Kirchgesler, RCDFES
SUBJECT: Funding for Government Access Cable Channel
Equipment

Following a recent malfunction of one of the VHS video players used in the Channel 98 Government Access system it was determined that the piece of equipment cannot be repaired. For the replacement of this video player and a second of the same model, both of which are in excess of 10 years old, and the required electronic interfaces needed for new video players I am requesting monies from Council Contingency Funds.

The total amount is not expected to exceed \$700 which includes the two video players, two required interfaces, and shipping.
