---

**ITEM 22**

DATE OF APPLICATION                      03/14/2003

REPORT BY                                      Vicki L. Fisher

RECOMMENDATION:

Staff recommends that the Comprehensive Plan Amendment to change the future land use designation from residential to general commercial be **denied without prejudice**.

GENERAL COMMENTS:

**This item has been continued twice since the April 10, 2003 Planning Commission meeting to allow the Future Land Use Committee to review the request. This Staff Report has been revised as of May 1, 2003. All revised and/or added text is shown in bold print.** The applicant has submitted a Comprehensive Plan Amendment request to change the future land use designation on the above legally described property from residential to general commercial. In addition, the applicant has submitted a request to rezone the above legally from Medium Density Residential District to General Commercial District. The applicant has also submitted a Layout Plat to subdivide approximately 10 acres located directly west of the subject property into two residential lots. (See companion items #03RZ015 and 03PL028.)

The property is located in the northwest corner of the Cambell/Street Fairmont Boulevard intersection and is currently void of any structural development.

STAFF REVIEW:

The subject property is located in an area that currently allows a mixture of use(s). The properties to the east and south are zoned General Commercial District and Light Industrial District, respectively. The properties to the north and west are zoned Medium Density Residential District. As such, staff is recommending that this item be reviewed by the Future Land Use Committee to determine the best and highest use of the property.

**On May 1, 2003, the applicant met with the Future Land Use Committee to discuss the Comprehensive Plan Amendment request. The Future Land Use Committee voiced concern with the location of the subject property in close proximity to Cambell Street and Fairmont Boulevard, a principal arterial street and a minor arterial street, respectively. In particular, the Future Land Use Committee noted that traffic issues may result if additional general commercial use(s) are allowed at this intersection. As such, the Committee indicated that the subject property as well as the east half of the lot, which is currently zoned General Commercial District, will require the review and approval of a Planned Commercial Development in order to support additional commercial use(s) at this location. As such, staff is recommending that the Comprehensive Plan Amendment be denied without prejudice to allow the applicant to submit a revised Comprehensive Plan Amendment as identified for the entire lot.**
