The Parks & Recreation Subcommittee unanimously moved that upon consideration of the five identified sites:

1. Stevens High School (tennis courts);
2. Tract 24, Rapid City Greenway (adjacent to the existing Skate Park);
3. Horace Mann Park (existing pool site);
4. Robbinsdale Park (adjacent to existing BMX or adjacent to Fairmont Street yard waste site); and,
5. Roosevelt Park (old skate park site);

that the Robbinsdale Park Fairmont Street yard waste site be identified as the only site of adequate size for the bicycle/skate park facility and to acknowledge that the site development costs are unknown and possibly cost prohibitive and that based on that evaluation the recommendation of the Parks & Recreation Committee is to make the donated equipment available to communities or organizations in the immediate Rapid City vicinity if that facility would also serve the interests of the citizens of Rapid City.
