RE: Mulligan Mile Sidewalk & Through
Street Proposals

Due to work schedules we will be unable to attend the meeting Thursday, October 23rd.

We are stating in this letter that it is our desire that sidewalks not be put in on Mulligan Mile. We propose that Mulligan Mile stay at its present width, with no on-street parking.

If a sidewalk is put in, & Mulligan Mile made wider, this will put an unplanned financial burden on the residents. Many of the residents are retired & on a fixed income, & many of the others are approaching retirement.

Thank you for considering our request.

Jim & Karen Cunningham

City Planning Commission
Scheduled for October 23, 2003
7:00A.M.

We have been notified of the above meeting and are unable to be in attendance. We do however wish to voice that our preference as homeowners is that Mulligan Mile should be a cul-de-sac, limiting the amount of traffic through the area. Sidewalks are just unnecessary in our opinion. We believe many homeowners have voiced their opinions repeatedly on these two issues. Please continue to hear our voices regarding these matters.

Sincerely,
Rod and Terri Stamper
