Attn. Vicki Fisher

Petition Number: 04SV001

I am a resident in this area and I would like to see the last 115 feet of Homestead Street finished east of Carl Avenue.

I say **NO** to any variance waive to the subdivision regulations. Have the developer put in the required curbs, gutter, sidewalk, sewer, water, and streetlights in place when the street is developed as per City codes. This is a school area and streetlight is needed as this will be a high traffic area. If the street is not completed we will have a drainage, mud, dirt and dust problem on the streets in this area.

Sincerely,

John D White
