MEMORANDUM

TO: **Public Works Committee**

FROM: Patsy Horton, Community Planning Coordinator

DATE: March 25, 2004

RE: No. 04TP004 - Approval of the 2004-2008 Rapid City Area

Transportation Improvement Program Amendment #04-001

Each year the Rapid City Area Metropolitan Planning Organization is required by the Federal Highway Administration to develop the Rapid City Area 2004-2008 Transportation Improvement Program (TIP) cooperatively with the South Dakota Department of Transportation. This is a five year priority list and financial plan for highway, transit, and intermodal projects. It is intended to serve as a fiscal management tool to assist state and local agencies in matching transportation needs with resources.

City and State staff have determined that the railroad crossing at Milwaukee Street in Rapid City is in need of repair and wish to proceed with several improvements. The current railroad crossing is dangerous to cross because there is no sidewalk. Additionally, drainage in the area ponds at the crossing. The work to this railroad crossing will include some drainage improvements as well as a sidewalk for the area pedestrians.

The cost for the 2004 Milwaukee Street railroad improvements are estimated at \$75,000, with a \$68,000 / \$7,000 funding split between the Federal Highway Administration and the South Dakota Department of Transportation, respectively. The Rapid City Area Metropolitan Planning Organization will consider this amendment at its April 1, 2004 meeting.

RECOMMENDATION: Staff recommends approval of the 2004-2008 Rapid City Area Transportation Improvement Program Amendment #04-001.
