No. 04TI011 - Resolution Creating Tax Increment District #49

ITEM 56

RECOMMENDATION: The Tax Increment Financing Committee recommends approval of the attached resolution creating Tax Increment District #49 for the City costs of a three lane facility and that alternative funding sources be sought for the Developer costs.

GENERAL COMMENTS: The applicant has requested the creation of a Tax Increment District to assist in the three lane extension of East Anamosa Street from Century Road to Lacrosse Street. The public infrastructure improvements for East Anamosa Street include the oversizing costs of grading, paving, utilities, storm sewers, and lighting, and the costs of street signals and a bridge over the railroad. The applicant has requested that the City finance this Tax Increment District at a 6% interest rate. A funding source for the City's costs has not been identified, but the applicant has submitted a request for 2012 Funding. The public improvements will enhance the ability for new development to occur and increase the community's economic vitality and expand the City's property tax base.

The proposed District boundaries incorporate approximately 150 acres located west of Century Road, east of LaCrosse Street and south of US 1-90.

STAFF REVIEW: The Tax Increment Financing Review Committee reviewed this proposal on October 22, 2004 and on November 10, 2004 and found that the proposed project complies with all applicable statutory requirements as well as the City's adopted Tax Increment Policy. In addition to the mandatory criteria, the Committee found that the proposal met the following two optional criteria:

Criteria #1: The project must demonstrate that it is not economically feasible without the use of Tax Increment Financing.

Criteria #3: The project will not provide direct or indirect assistance to retail or service businesses competing with existing businesses in the Rapid City trade area.

Additionally, the following discretionary criteria are met:

Criteria #2: All Tax Increment Fund proceeds are used for the construction of public improvements.

Criteria #9: The project costs are limited to those specific costs associated with a site that exceed the typical or average construction costs (i.e. excessive fill, relocation costs, additional foundation requirements associated with unusual soil conditions, extension of sewer or water mains, on-site or off-site vehicular circulation improvements, etc.)

Copies of the adopted Tax Increment Financing Policy are attached for your reference.

The Tax Increment Financing Project Review Committee recommends approval of the attached resolution approving the creation of Tax Increment District #49 for the City costs of a three lane facility and that alternative funding sources be sought for the Developer costs.
