DATE OF APPLICATION	2/11/2005
REVIEWED BY	Vicki L. Fisher / Bob Dominicak

STAFF REPORT
March 10, 2005

No. 05SV015 - Variance to the Subdivision Regulations to waive the requirements to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along a Section Line Highway and an access easement and to waive the requirements to install street light conduit and sidewalks along West Chicago Street as per Chapter 16.16 of the Rapid City Municipal Code

ITEM 39

RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to waive the requirements to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along a Section Line Highway and an access easement and to waive the requirements to install street light conduit and sidewalks along West Chicago Street as per Chapter 16.16 of the Rapid City Municipal Code be continued to the March 24, 2005 Planning Commission meeting at the applicant's request.

GENERAL COMMENTS:

The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along a Section Line Highway and an access easement and to waive the requirement to install street light conduit and sidewalk along West Chicago Street as they abut the subject property. In addition, the applicant has submitted a Preliminary Plat to subdivide the subject property into two lots. (See companion item #05PL028.)

On December 6, 2004, the City Council approved a Layout Plat to subdivide the subject property into two lots as shown on this Preliminary Plat.

The subject property is located along West Chicago Street near the Sturgis Road intersection. Currently, a car sales lot is located on proposed Lot BR. The balance of the site is void of any structural development.

STAFF REVIEW:

Staff has reviewed the Variance to the Subdivision Regulations and has noted the following considerations:

West Chicago Street: West Chicago Street is located along the south lot line of the subject property. Currently, a sidewalk has not been constructed along this section of East Chicago Street. Requiring the construction of a sidewalk along East Chicago Street as it abuts the subject property will result in a discontinuous street section. As such, staff is recommending that the Variance to the Subdivision Regulations to waive the construction of a sidewalk along East Chicago Street be approved with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvement.

Private Access Easement: The Preliminary Plat identifies a 40 foot wide private access easement located across proposed Lot BR to an existing lot located directly west of the subject property. The access easement is classified as an industrial street requiring that it be located in a minimum 59 foot wide easement and constructed with a minimum 26 foot wide paved surface, curb, gutter, sidewalk, street light conduit, water and sewer. The access easement is currently paved as a part of the adjacent parking lot. However, the balance of the improvements have not been constructed along this portion of the access

No. 05SV015 - Variance to the Subdivision Regulations to waive the requirements to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along a Section Line Highway and an access easement and to waive the requirements to install street light conduit and sidewalks along West Chicago Street as per Chapter 16.16 of the Rapid City Municipal Code

ITEM 39

easement or the balance of the easement located on the adjacent property. Requiring the improvement of the private access easement as it abuts the subject property will result in a discontinuous street section. As such, staff is recommending that the Variance to the Subdivision Regulations to waive the improvements along the private access easement be approved.

Section Line Highway: A section line highway is located along the east lot line of the subject property. The east half of the section line highway is located on an adjacent property under different ownership from the subject property. In the past, the City Council has indicated that a section line highway should be vacated if a street is not to be constructed within the highway. The applicant has indicated that he has not contacted the adjacent property owner to determine if they would support vacating the section line highway. As such, the applicant has requested that the Variance to the Subdivision Regulations be continued to the March 24, 2005 Planning Commission to review the vacation procedure with the adjacent property owner.

Staff is recommending that the Variance to the Subdivision Regulations be continued to the March 24, 2005 Planning Commission meeting at the applicant's request.
