No. 05SV026 - Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit and additional pavement and to waive the requirement to provide a ten foot wide planting screen easement as per Chapter 16.16 of the Rapid City Municipal Code

ITEM 49

1. Prior to approval by the City Council, the applicant shall sign a waiver of right to protest any future assessments for the installation of curb, gutter and sidewalk along Reservoir Road.

GENERAL COMMENTS:

The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk and planting screen along Reservoir Road as it abuts the subject property. On April 19, 2004, the City Council approved a Layout, Preliminary and Final Plat (#03PL042) to subdivide the subject property into 24 residential lots and one drainage lot as a part of the Trailwood Village Planned Unit Development within Pennington County zoning requiring a minimum lot size of 6,500 square feet. The proposed lots meet this requirement. The applicant has also submitted a Layout and Preliminary Plat to subdivide approximately 0.475 acres into two townhome lots. (See companion item #05PL066.)

The subject property is located northwest of Reservoir Road along Savannah Street. Currently, there are two townhouse structures located on the property.

STAFF REVIEW:

Staff has reviewed the Variance to the Subdivision Regulations request and has noted the following considerations:

Reservoir Road: Reservoir Road is located along the east lot line and is classified as a principal arterial street requiring that it be located in a minimum 100 foot wide right-of-way. In addition, it is the responsibility of the developer to construct an arterial street to collector street standards with a minimum 40 foot wide paved surface, curb, gutter, sidewalk, street light conduit, water and sewer. Currently, Reservoir Road is located in a 66 foot wide right-of-way and constructed with a 24 foot wide paved surface with water and sewer. Reservoir Road is constructed without curb, gutter, sidewalk and street light conduit. The previous plat document (#03PL042) identified the dedication of an additional 17 foot wide right-of-way for Reservoir Road as it abuts the subject property. The balance of the required right-of-way will be obtained from the adjacent property in the future. Requiring the improvement of Reservoir Road as it abuts the subject property will result in a discontinuous street section. The Planning Commission and the City Council have granted similar Variance requests when the requirement to improve the street would result in a discontinuous street section. As such, staff is recommending that the Variance to the Subdivision Regulations to waive the improvements along Reservoir Road be approved with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvement.

Legal Notification Requirement: The receipts from the certified mailings have not been returned as of this writing. Staff will notify the Planning Commission at the May 5, 2005 Planning Commission meeting if this requirement is not met.
