RE: Special Storm Drainage Work At Lazy P-6 Subdivision

Dear Sir:

Per the sketch from Roy Boscher and the recent conversations between us, I take this opportunity in writing to confirm the scope of work involved per the above mentioned project.

My quote includes the following items:

- a) Underground utility locates.
- b) Mobilization and excise tax.
- c) Excavate and remove the concrete plug just downstream from the 48" RCP tee.
- d) Pour a concrete collar in the gap between pipe joints where the plug was located.
- e) Drill pipe, dowel with rebar and pour a new plug with a small opening on the bottom as shown on Mr. Boscher's sketch.
- f) Backfill and compact around pipes as required.

The lump sum price for this work is \$ 4,250.00.

Thank you for the opportunity to quote this work. Feel free to contact me anytime questions arise.

Respectfully,

Robert J. Quinn  
President  
Quinn Construction, Inc.
