STAFF REVIEW:

Staff has reviewed the Amendment to the Comprehensive Plan to change a minor arterial street to a collector street and to relocate a minor arterial street on the Major Street Plan and has noted the following considerations:

Street Classification Change: The revised Layout Plat identifies the north-south arterial street in lieu of a collector street as originally proposed. As such, staff is recommending that the Variance to the Subdivision Regulations to change a minor arterial street to a collector street on the Major Street Plan be tabled.

Street Location: The Major Street Plan identifies a minor arterial street extending through the subject property. The applicant is proposing to relocate the minor arterial street approximately 1,000 feet east of its' current location. The topographic constraints and drainage channels located within this area support relocating the arterial street as proposed. As such, staff is recommending that the Comprehensive Plan Amendment to relocate the minor arterial street as shown on the Major Street Plan be approved.

Legal Notification Requirement: The receipts from the certified mailings have been returned. Staff has received three calls of inquiry regarding this proposal.
