Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for Project SSW05-1309 CIP #50468 East St. Louis Street Reconstruction

Staff proposes to reconstruct the street, water main, and sanitary sewer main in E. St. Louis Street between East Boulevard and Maple Avenue. The sanitary sewer main will be repaired, the water main reconstructed, and the street patched and overlaid in E. St. Louis Street between Maple Avenue and Herman Street. The existing 4 inch water main is undersized, and the sanitary sewer main and street are in disrepair.

Staff proposes to hire a Consultant Engineer to be responsible for designing the project, construction inspection and administration, and project closeout.

Funding for this project is from the Water Enterprise Fund, Sewer Enterprise Fund, Streets Fund and Drainage Fund. The project budget is \$445,000.00, which includes design and construction costs.

Staff proposes to bid and construct the project in 2006.

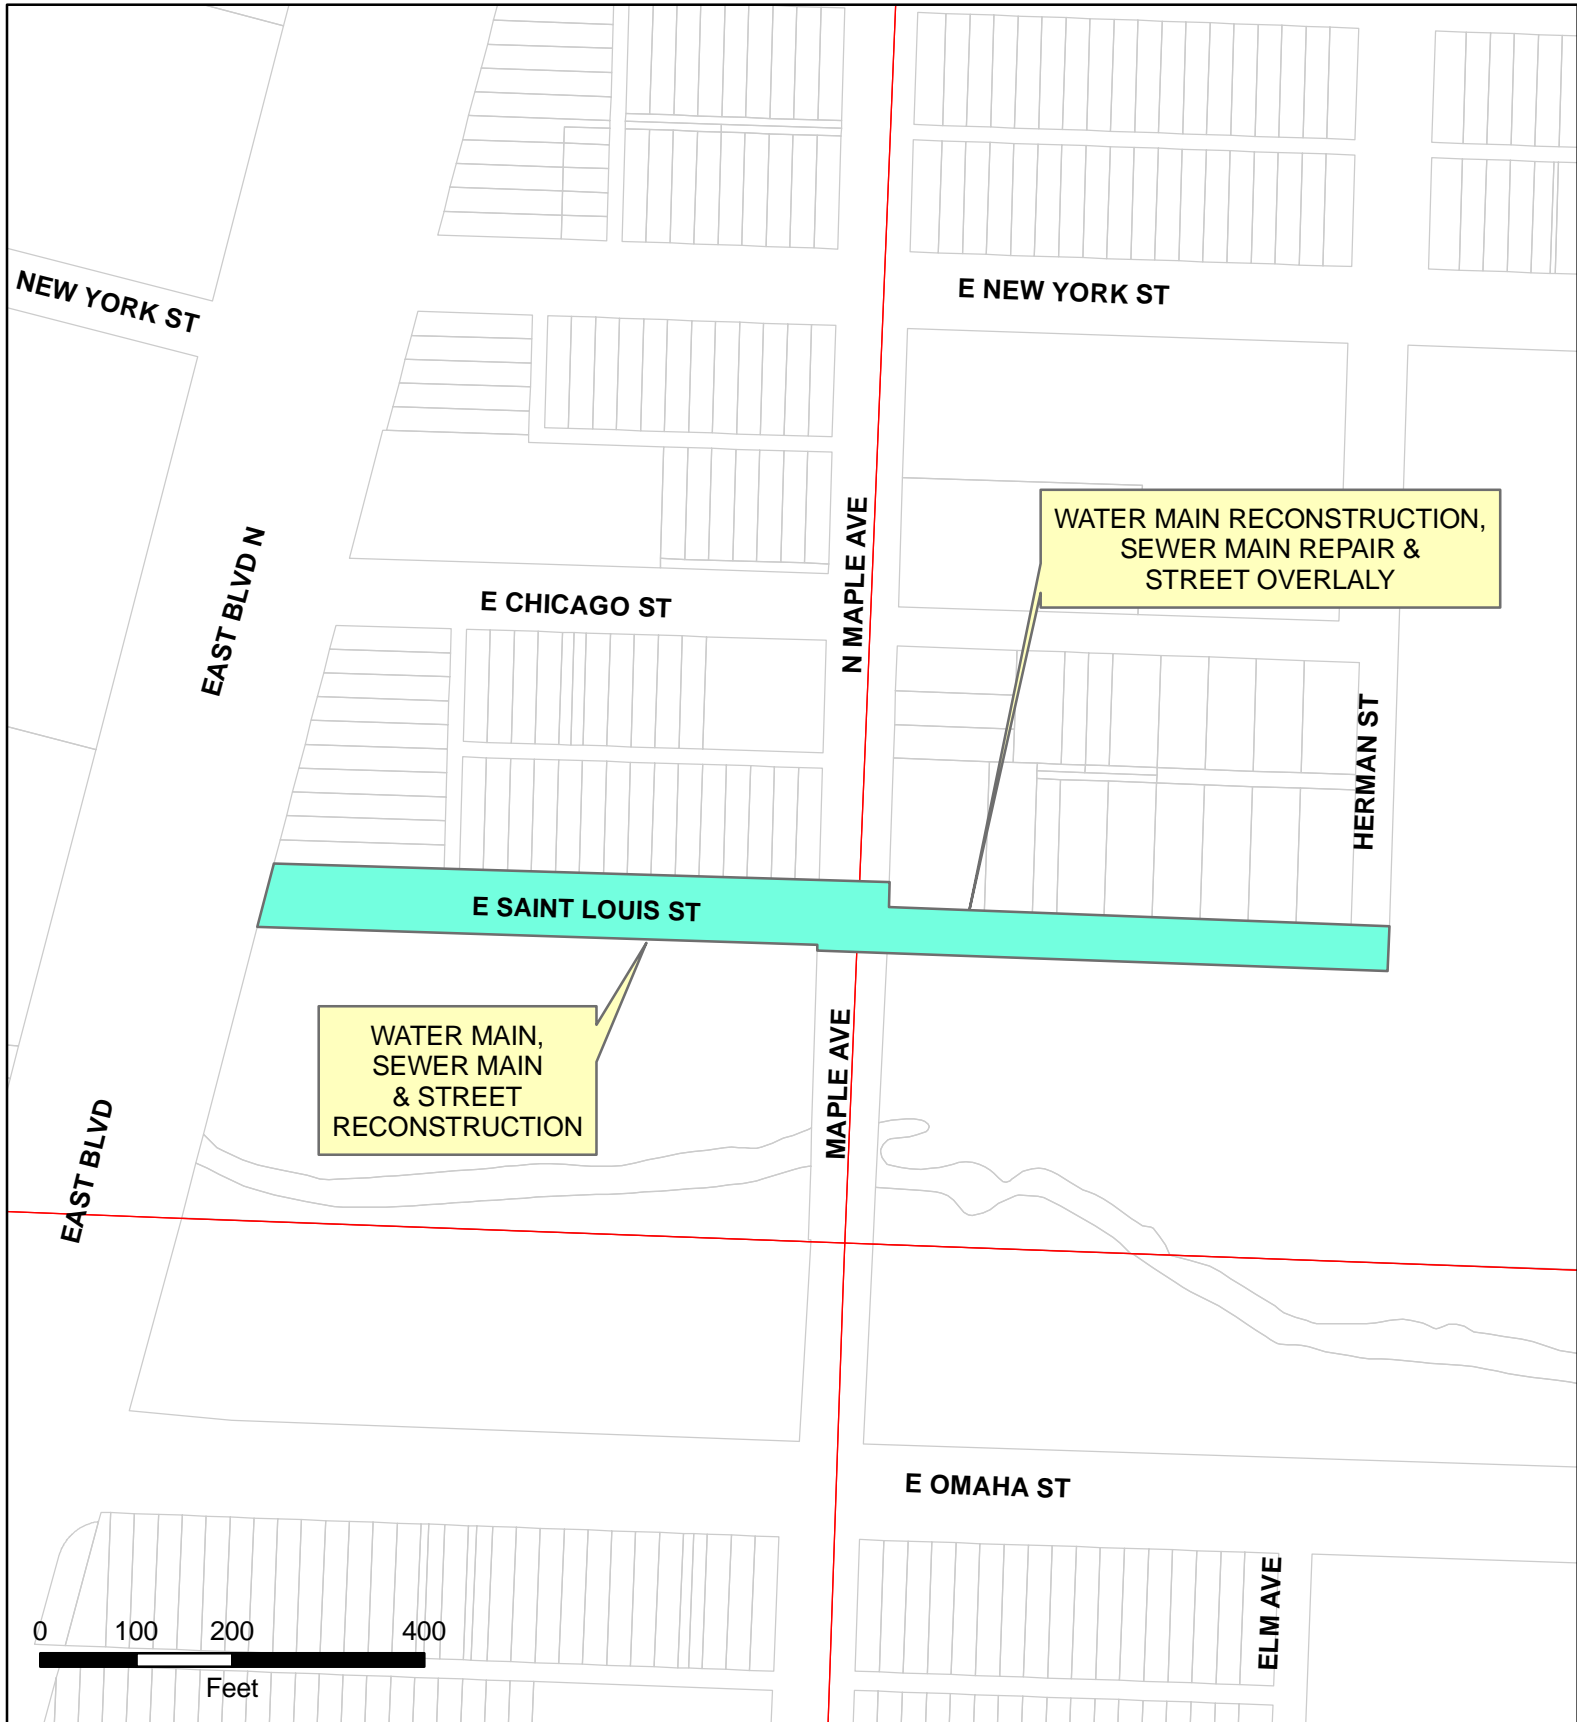

Keith Johnson
Project Administrator

Cc: Dirk Jablonski, Public Works Director
