MEMORANDUM

TO: Public Works Committee, Rapid City Council

FROM: Jerry Wright, Superintendent, Solid Waste Operations

DATE: September 7, 2006

RE: Request authorization to request proposals for the 2007 Landfill Environmental Contract

The Solid Waste Division requests permission to seek proposals for the 2007 Environmental Monitoring Contract. The testing is required by our permits, and includes ground water monitoring, surface water discharges, waste water discharges, compost quality, testing of petroleum contaminated soils, landfill gas monitoring, leachate testing, and soil compaction tests, and similar tasks.

The estimated cost of the 2007 contract is \$45,000.00, and is covered under the proposed 2007 budgets for the Landfill and Material Recovery Facility.

The interview and selection process will be in accordance with City policy and is anticipated to take place in October, with final selection being made in November and recommendation to the City Council in November or December, in order to have a contract in effect by January 1, 2007.

If you have any questions, please call me at 355-3496.
