**No. 06CA029 - Amendment to the Comprehensive Plan by revising the North Rapid Neighborhood Area Future Land Use Plan to change the land use designation from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development**

---

**ITEM 17**

East:	General Commercial District (Planned Commercial Development)
West:	Medium Density Residential District - General Agriculture District
PUBLIC UTILITIES	City sewer and water
DATE OF APPLICATION	8/25/2006
REVIEWED BY	Karen Bulman / Emily Fisher

**RECOMMENDATION:** Staff recommends that the Amendment to the Comprehensive Plan by revising the North Rapid Neighborhood Area Future Land Use Plan to change the land use designation from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development be approved.

**GENERAL COMMENTS:** This undeveloped property contains approximately 4.42 acres and is located at the eastern terminus of Farnwood Avenue, east of LaCrosse Street and south of Interstate 90. The property is currently zoned General Agriculture District. Land located north and east of the subject property is zoned General Commercial District with a Planned Commercial Development. Land located west of the subject property is zoned Medium Density Residential District with a Planned Residential Development and General Agriculture District. Land located south of the subject property is zoned General Agriculture District. In addition to this Comprehensive Plan Amendment application, the applicant has submitted a Rezoning request for the subject property from General Agriculture District to General Commercial District (06RZ033), a Planned Development Designation (06PD066), a Comprehensive Plan Amendment to change the land use on adjacent property from Medium Density Residential to General Commercial with a Planned Commercial Development (06CA030), and a Rezoning request for the adjacent property from Medium Density Residential District to General Commercial District (06RZ035).

**STAFF REVIEW:** The adopted Comprehensive Plan is a framework within which development and rezoning proposals are measured and evaluated. The plan is intended to guide the orderly growth of the community. In order for the plans to remain viable and to keep pace with a changing market place, periodic adjustments to reflect changing conditions will be required.

Staff has reviewed this proposed Comprehensive Plan Amendment for conformance with the six criteria for review of Comprehensive Plan Amendments established in Section 2.60.160(D). A summary of Staff findings are outlined below:

1. *Whether the proposed change is consistent with the policies and overall intent of the comprehensive plan.*

**No. 06CA029 - Amendment to the Comprehensive Plan by revising the North Rapid Neighborhood Area Future Land Use Plan to change the land use designation from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development**

---

**ITEM 17**

One of the goals of any Future Land Use Plan is to encourage compact and contiguous growth along the City's fringe that is linked to orderly extension and efficient use of public improvements, infrastructure, and services. In-fill development and full utilization of properties currently served by infrastructure are encouraged. This change is consistent with the intent of the City's Comprehensive Plan to encourage the orderly extension of contiguous growth along the City's fringe.

- 2. Whether the proposed change is warranted by changed conditions within the neighborhood surrounding and including the subject property.*

The undeveloped subject property and the adjacent undeveloped property are proposed for future commercial development. The majority of the adjacent property north and east of the subject property is currently zoned General Commercial District with a Planned Commercial Development in anticipation of a proposed commercial development. The proposed Amendment to the Comprehensive Plan to change the land use to General Commercial with a Planned Commercial Development and the subsequent rezoning of the subject property to General Commercial will allow the entire property to be zoned appropriately for commercial development.

- 3. Whether and the extent to which the proposed amendment is compatible with existing and proposed uses surrounding the subject land*

The property located north and east of the subject property is zoned General Commercial District with a Planned Commercial Development. The property located south of the subject property is zoned General Agriculture District. The property located west of the subject property is zoned Medium Density Residential District and General Agriculture District. The proposed amendment to change the land use from Medium Density Residential with a Planned Residential Development to General Commercial with a Planned Commercial Development appears to be compatible with the commercial uses adjacent to the subject property.

- 4. Whether and the extent to which the proposed amendment would adversely affect the environment, services, facilities, and transportation*

The existing streets and utilities adjacent to the subject property are designed to serve a General Commercial development. LaCrosse Street, an arterial street on the City's Major Street Plan, is located west of the subject property. Future street improvements and infrastructure improvements will be completed with the future commercial development of the subject property. With the extension of that infrastructure, the proposed amendment does not appear to have any significant adverse effect on the surrounding properties.

- 5. Whether and the extent to which the proposed amendment would result in a logical and*

*orderly development pattern.*

The subject property is located in an undeveloped area that is now ready for development. Street and infrastructure improvements will be extended as development occurs. The proposed amendment will allow the continuation of commercial development within the City. The proposed change would result in a logical and orderly development pattern.

6. *Whether and the extent to which the proposed amendment adversely affects any other part of the city, or creates any direct or indirect adverse effects.*

City water and sewer will be extended into the subject property and street networks are located adjacent to the subject property. In particular, the existing street and utilities adjacent to the subject property are designed adequately to serve a General Commercial development. Adequate water and sanitary sewer service is available to support general commercial development. In addition, the Initial and Final Planned Residential Development will help to mitigate any negative effects the development may have on existing or future land uses in the area. Staff has not identified any significant adverse effects that the Comprehensive Plan Amendment will have on the surrounding area or on the City.

As of this writing, the required sign has not been posted on the property and the receipts from the certified mailing have not been returned. Staff will notify the Planning Commission at the September 21, 2006 Planning Commission meeting if these requirements have not been met. Staff has received no inquiries or objections regarding the proposed request at the time of this writing.
