I don't know how to forward this attachment to the lady at the city. But here is her email and can you forward this email to her with the following.

Maggie

This is my proposal of what I would like to do the garage. I believe that most of the work will be a cosmetic thing but this is my proposal.

1. Leveling up the foundation and re-enforcing the building.
2. New shingles on the roof.
3. Putting new flashing and eave troughs on the garage.
4. Painting and leveling the garage doors.

i would like at least 60 days in which to complete this project.

Sincerely,

Norma Knight
