The Black Hills Prospecting Club Is requesting authorization to conduct a raffle for a gold nugget at the GPAA Gold Show that is being held at the Rapid City Fair Ground Event center on May 5th And 6th 2007. The gold nugget will be about a 4 to 6 gram, 22 to 24 caret, real gold nugget. The present market value of a gram of gold at this time is around \$24.50 per gram, that making the value of the nugget to be raffled of worth about \$98.00 to 148.20. The nugget will be given away at the end of the show on Sunday the 6th of May and then presented to the winner or mailed (need not be present to win) to them.

All moneys made from the raffle will be used to help the Black Hills Prospecting Club pay for future expenses for educating its members, the general public, and other local groups such as the Boy Scout and Girl Scouts of America on the correct ways of prospecting.

Prospecting for gold is an excellent family activity that is why the Black Hills Prospecting Club was started. We teach and educate the correct and responsible ways of casual prospecting in the Black Hills. We work closely with the Black Hills National Forest Service, the BLM, and the Department of Environmental and Natural Resources. With the cooperation of these offices and the support of the club members and local groups, we hope to keep educating the people and keep the great family hobby of casual prospecting alive.

If you have any question feel free to contact the club President, Mike Borden at 605-341-0483 or 605-209-1295.
