Subject: Rezoning REQUEST 07RZ018 and Comprehensive Plan Amendment
REQUEST 07CA013

Date: April 2, 2007

Our major concern in this matter is the many children who walk, run, bike, take their dogs by our home every day. We have many pre-school and school age children who play in the area and would be exposed to increased hazardous traffic with General Commercial development.

We live right beside the area and were aware of the Office Commercial zoning when we bought our home. We felt a dental, medical, general office complex would complement the neighborhood. General Commercial zoning would have the opposite effect.

Changing the area to General Commercial would make it more difficult to sell lots for sale along Sand Cherry Lane and Willowbend Road, which abut the area in question. We and our neighbors hope more homes will be built on these lots to further enhance the residential development of our neighborhood. General Commercial zoning would be at the back yards of these lots and discourage potential home buyers.

The City of Rapid City often requires a "Buffer" between General Commercial and Residential property. Mr Elliot wants the area to become General Commercial which would provide no "Buffer" to lots for sale and existing residences.

Mr Elliot has also applied for General Commercial zoning on a huge amount of land to the west and south of Willowbend Road. This, coupled with the Office Commercial zoning next to our residential area, would actually give him a greater variety of land parcels for sale.

How would you feel if you expected a dental clinic to be built next to your home and neighborhood only to see a Salvage Yard go in? Such might be within the realm of possibility by changing Office Commercial to General Commercial in this area.

On behalf of our children, our neighbors and those we hope will build homes here, we respectfully ask that you leave the area Office Zoned.
