## MEMORANDUM

TO: Public Works Committee

FROM: Don Brumbaugh, Street Superintendent

THROUGH: Dirk Jablonski, Public Works Director

SUBJECT: Surplus Sand / Salt Stockpile

The Street Division would like to surplus the sand / salt stockpile that is located at the Street Division yard in order to make room for additional road chemical storage.

The sand was purchased seven to eight years ago to be used as a traction control material for winter snow operations. With the Particulate Matter 10 regulations that came into play shortly after that time, very little of the material has been used. Currently the stockpile is estimated at 3,500 to 4,000 tons of material.

I have contacted the SDDOT and the Pennington County Highway Department. Both entities expressed an interest in purchasing the material.
