No. 07SV068 - Variance to the Subdivision Regulations to waive the ITEM 50 requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along Sunset Vista Road and the Access Easement as per Chapter 16.16 of the Rapid City Municipal Code

RECOMMENDATION:

Staff recommends that the Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along Sunset Vista Road and the Access Easement as per Chapter 16.16 of the Rapid City Municipal Code be continued to the January 24, 2008 Planning Commission meeting to be heard in conjunction with the Preliminary Plat.

GENERAL COMMENTS: The applicant has submitted a Variance to the Subdivision Regulations to waive the requirement to install curb, gutter, sidewalk, street light conduit, water, sewer and pavement along Sunset Vista Road and the Access Easement as per Chapter 16.16 of the Rapid City Municipal Code. The applicant has also submitted a Preliminary Plat to subdivide approximately 10.47 acres into two residential lots ranging in size from 4.47 acres to 6.00 acres. (See companion item #07PL168.)

The subject property is zoned Park Forest and is located east of Sheridan Lake Road and South of Sunset Vista Road. Currently, there is a single-family residence and accessory structures located on the property.

STAFF REVIEW:

Staff has reviewed the Variance to the Subdivision Regulations request and has noted the following considerations:

Sunset Vista Road: The Sunset Vista Road is classified as a lane/place street requiring that it be located in a minimum 49 foot wide right-of-way and constructed with a minimum 24 foot wide paved surface, curb, gutter, sidewalk, street light conduit, water and sewer. Staff also noted that a turnaround shall be constructed at the end of Sunset Vista Road that is in accordance with the Street Design Criteria Manual. Staff noted that there does not appear to be adequate right-of-way width along Sunset Vista Road to the west of the property to access the site. It also appears that a portion of Sunset Vista Road is located outside of the dedicated right-of-way. The applicant is requesting a Variance to the Subdivision Regulations to waive the requirement to install pavement, curb, gutter, sidewalk, street light conduit, water and sewer along the access easement. Staff recommends that the Variance to the Subdivision Regulations be continued to be heard in conjunction with the Preliminary Plat and to allow the applicant to submit all of the required application materials necessary for a Preliminary Plat application.

Access Easement: The Preliminary Plat identifies an access easement extending north and south through the property to provide access to the south. The access easement is classified as a lane/place street requiring that it be located in a minimum 49 foot wide right-of-way and constructed with a minimum 24 foot wide paved surface, curb, gutter, sidewalk, street light conduit, water and sewer. The applicant is proposing to provide a 49 foot wide easement and requesting a Variance to the Subdivision Regulations to waive the requirement to install pavement, curb, gutter, sidewalk, street light conduit, water and sewer along the access easement. Staff recommends that the Variance to the Subdivision
