Subdivision; Thence, sixteenth course: S00°02'34"W, along the westerly boundary of said Lot 1, a distance of 299.94 feet, to the southwesterly corner of said Lot 1; Thence, seventeenth course: S00°22'46"W, a distance of 50.01 feet, to a point on the section line common to Sections 18 and 19 and the point of beginning

PARCEL ACREAGE	Approximately 40.76 acres
LOCATION	North of Country Road, east of Cobalt Avenue and west of 143rd
EXISTING ZONING	Low Density Residential District
SURROUNDING ZONING	
North:	Limited Agriculture District (Pennington County)
South:	Low Density Residential District
East:	Medium Density Residential District
West:	Low Density Residential District
PUBLIC UTILITIES	To be Extended
DATE OF APPLICATION	1/11/2008
REVIEWED BY	Jonathan Smith / Ted Johnson

**RECOMMENDATION:**

Staff recommends that the Rezoning from Low Density Residential District to Medium Density Residential District be continued to the February 21, 2008 Planning Commission meeting.

**GENERAL COMMENTS:**

The applicant has submitted a request to rezone 40.76 acres from Low Density Residential to Medium Density Residential District with a Planned Residential Development. An associated Comprehensive Plan Amendment request (#08CA002) to change the Future Land Use designation from Low Density Residential District to Medium Density Residential District with a Planned Residential Development has been filed in conjunction with this request. The property is located north of Country Road, east of Cobalt Avenue and west of 143rd Street. The property was annexed (#05AN001) into the municipal boundaries of Rapid City on June 6, 2005. The property was rezoned from No Use District to Low Density Residential District (#05RZ008) on June 6, 2005. Property to the north is zoned Limited Agriculture District by Pennington County. Property located to the south and west is zoned Low Density Residential District. Property located to the east is zoned Medium Density Residential District.

On June 6, 2005, the City Council approved a Layout Plat (#05PL022) to subdivide the property into 425 residential lots, to be known as "Freeland Meadows Subdivision. On July 5, 2005, the City Council approved a Variance to the Subdivision Regulations (#05SV012) to waive the

---

requirement to install curb, gutter, sidewalk, street light conduit, water and sewer along Country Road and W. Nike Road with the stipulation that the applicant sign a waiver of right to protest any future assessment for the improvements. The waiver of right to protest document has been signed and recorded at the Register of Deed's Office.

A revised Layout Plat (#07PL180) identifying the property as "Prairie Meadows Subdivision" to subdivide a 146.8 acre parcel into 273 lots has yet to be approved by Planning Commission as of this writing. In addition, the applicant has submitted a Comprehensive Plan Amendment to the Major Street Plan (#07CA062) to relocate LaCrosse Street as it extends through the area.

Currently, the property is void of any structural development. The property is zoned Low Density Residential.

STAFF REVIEW:

Rezoning the property from Low Density Residential District to Medium Density Residential District will result in an increase in density. Staff has noted that adequate water and sewer service must be provided to this proposed residential development to avoid potential adverse effects to the property and the surrounding area. A majority of the property, or that portion located below 3,300 feet, is located within the low level pressure water service area. Currently, the low level pressure water system has not been extended into this area. The high level pressure water system is located west of the property. However, due to the elevation of this property, pressure reducing valves must be utilized in order to serve the property from the high pressure water service system. In addition, an Exception must be obtained to allow the property to be served from the high pressure water service system in lieu of the low pressure water service system. Until an Exception is granted and the applicant demonstrates that there is capacity within the proposed water distribution system, it is unclear how water service will be provided to the development.

Due to the elevation of this portion of the property, it is unclear how this area of the property will obtain sanitary sewer service. As such, initial information must be submitted for review and approval documenting that sanitary sewer can be provided.

This request and the associated (#08CA002) Comprehensive Plan Amendment were reviewed by the Future Land Use Committee on January 31, 2008. The Future Land Use Committee noted that this may be an appropriate land use if adequate utilities and access are provided.

Staff recommends that this item be continued to the February 21, 2008 Planning Commission meeting to allow the applicant time to submit additional water and sewer service information.

NOTIFICATION:

The proper sign has been posted on the property. The white slips and green cards receipts from the certified mailing have been returned.
