Vicki,

Thank you for reviewing with me the above Petition for Variance. As I indicated to you, I had been contacted by neighbors with a concern that the application is an attempt to allege a 2nd public access has been approved by the City, so that there can be additional development. In reviewing this matter, you have assured me that the applicant has no such purpose, and that the intent of this application is to revise a lot to clarify a situation with the water company. If that is the case, then obviously there is no objection to this petition.

Thank you again for your time to review this matter.
