MEMORANDUM

TO: Mayor and City Council

FROM: Dale Tech PE/LS, City Engineer

SUBJECT: September 2, 2008 City Council Agenda Item #50, Acknowledge the Report on the Comprehensive Road Conditions.

DATE: August 29, 2008

Attached are maps of the Comprehensive Road Conditions that were presented at the August 15, 2008 CIP Committee meeting.

The maps show a rating from 0-18, with zero being a good road and 18 being a road in very poor condition.

The maps are organized as follows:

The first map shows the entire rating of all roads in the City with the rehabilitation projects that were performed in 2007, 2008, and proposed for 2009.

The next group of maps shows all roads in the city broken down by the following rating ranges; 18, 17-16, 15-13.

The last group of maps shows the roads by road classification and rating range.

Ratings were developed using three criteria, 1. Age of the road, 2. Pavement Condition, 3. Classification of the road.

These maps are used as a tool to identify road rehabilitation projects in the CIP with an emphasis put on lower classification roads such as Local and Collector roads.
