MEMO

To: Mayor Hanks, Rapid City Council

Re: Request Authorization to Negotiate Professional Consultant Services with
Baffuto Architectura for Fire Station #7

The City of Rapid City is preparing to construct a new Fire Station #7 at the north end of East North Street (see map). The design of this structure will be based on the proto-type that was used for Fire Stations #3 and #6.

Baffuto Architectura was selected through the City's Consultant Selection Process to design Station #6 and was later contracted for Station #3.

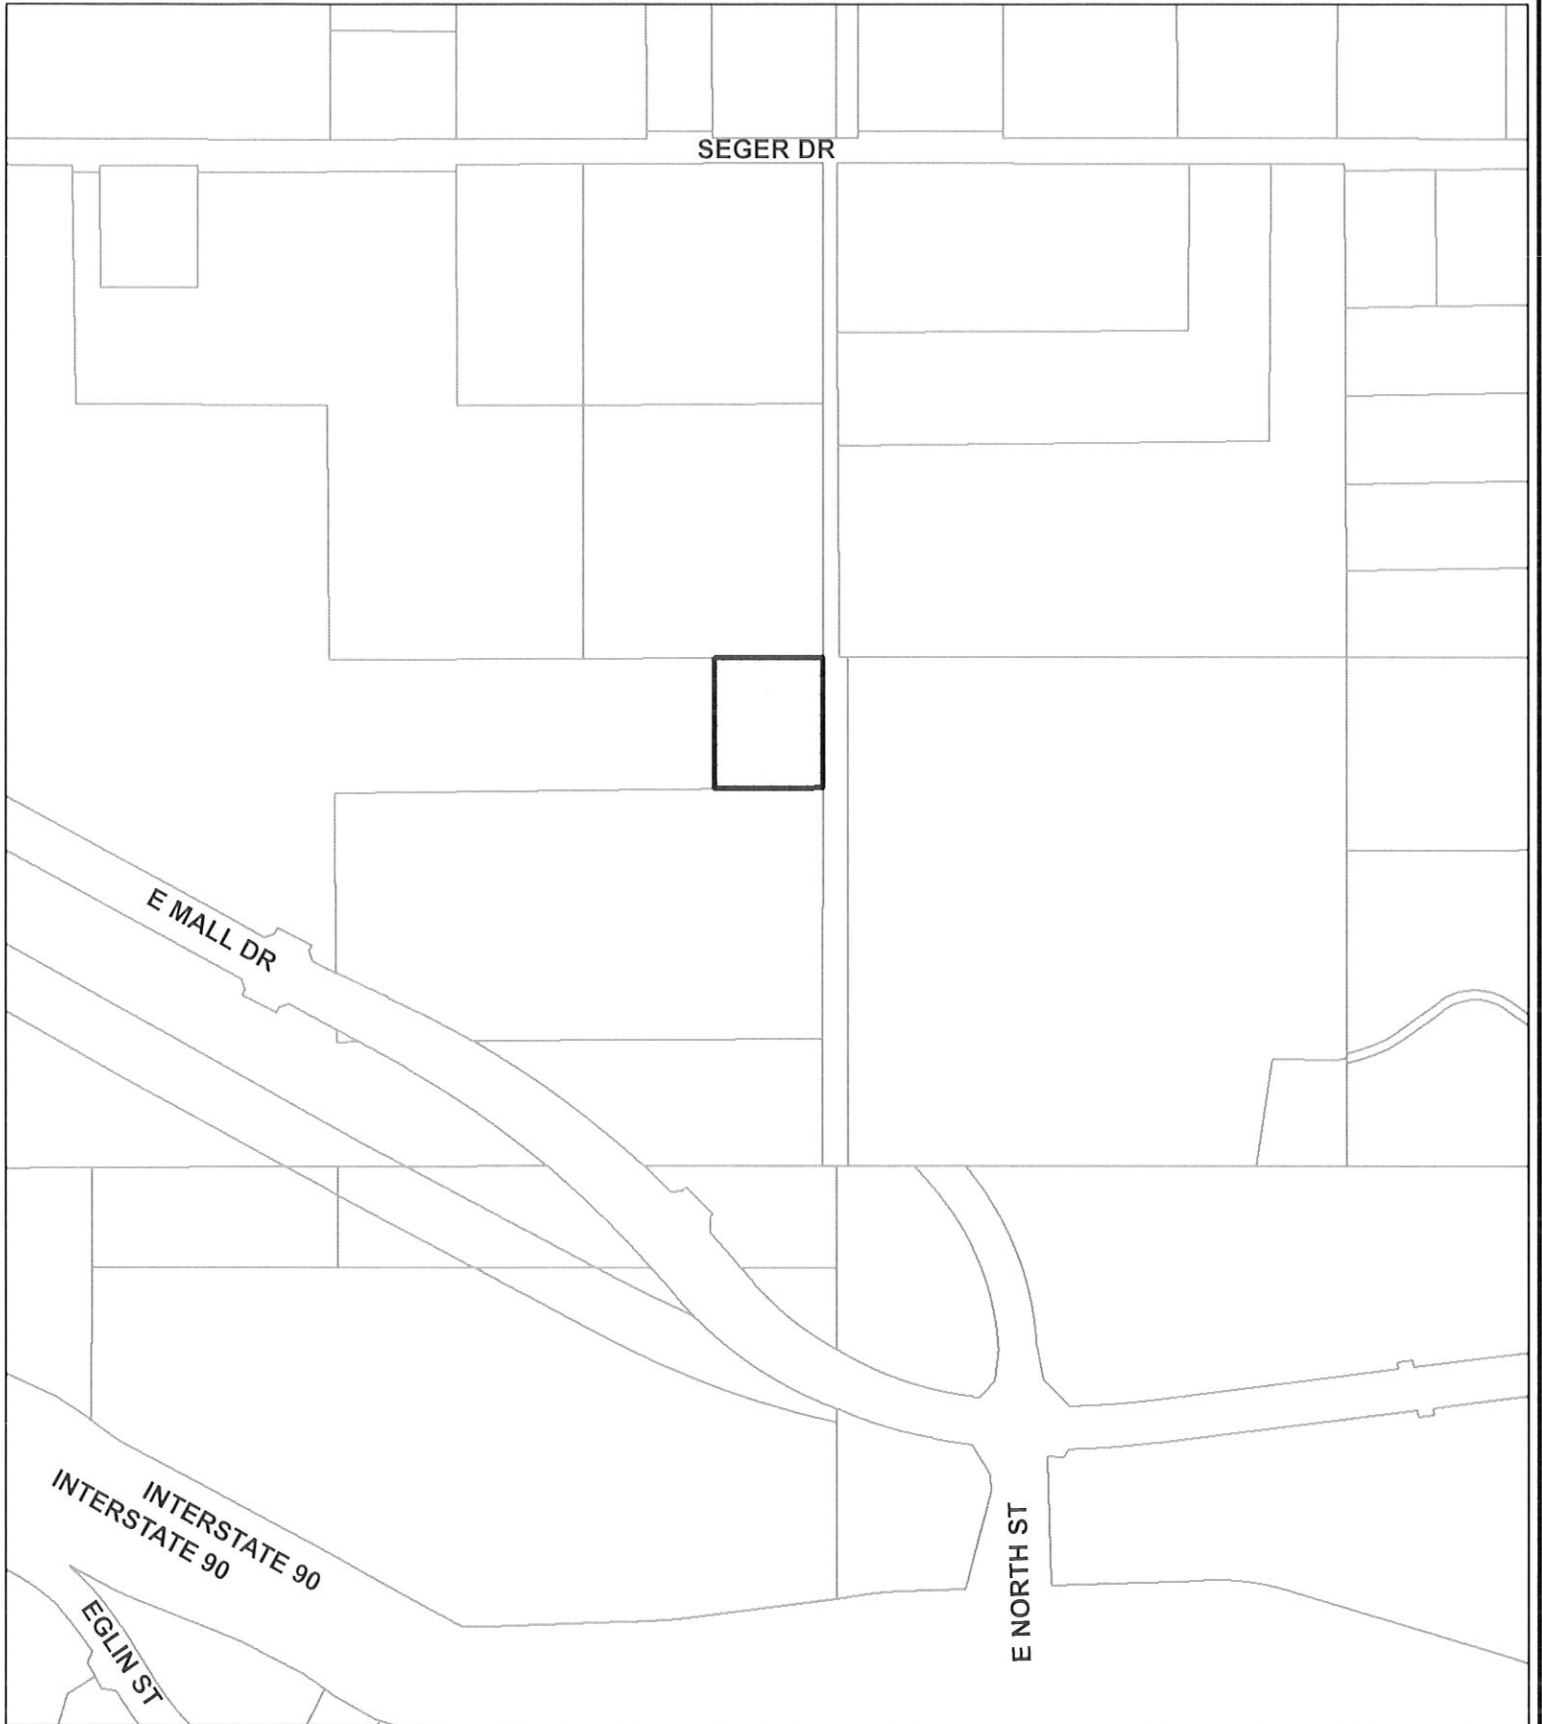

Funding is available in the Capital Improvements Government Buildings Fund.

Rodney K. Johnson, P.E.
