No. 08RZ045 - Rezoning from Park Forest District to Flood Hazard District **ITEM 30**

GENERAL INFORMATION:

APPLICANT/AGENT	Pennington County/City of Rapid City
PROPERTY OWNER	Pennington County/City of Rapid City
REQUEST	No. 08RZ045 - Rezoning from Park Forest District to Flood Hazard District
EXISTING LEGAL DESCRIPTION	Lot 1A of Block 3 of Jackson Park, Section 8, T1N, R7E, BHM, Rapid City, Pennington County, South Dakota
PARCEL ACREAGE	Approximately 0.2 acres
LOCATION	West of Chapel Lane and south of Jackson Boulevard
EXISTING ZONING	Flood Hazard District
SURROUNDING ZONING	
North:	Flood Hazard District
South:	Park Forest District
East:	General Commercial District
West:	Flood Hazard District
PUBLIC UTILITIES	City sewer and water
DATE OF APPLICATION	10/24/2008
REVIEWED BY	Karen Bulman / Karley Halsted

RECOMMENDATION: Staff recommends that the Rezoning from Park Forest District to Flood Hazard District be approved.

GENERAL COMMENTS: Rapid City and Pennington County have submitted the request to change the zoning designation of the property from Park Forest District to Flood Hazard District. The property is located west of Chapel Lane and south of Jackson Boulevard.

The Rapid Creek Floodplain Development Policy was recently revised and adopted by the Rapid City Council on July 7, 2008. The policy document included the following language:

“The City shall seek to rezone the following publicly owned properties to Flood Hazard for consistency purposes:

- Lot 1A, Block 3, Jackson Park - owned by PenningtonCounty/Rapid City
- Lot 1B, Block 3, Jackson Park – owned by Rapid City
- Lots 5-6, Block 1, Jackson Park – owned by Rapid City”

No. 08RZ045 - Rezoning from Park Forest District to Flood Hazard District **ITEM 30**

This property is one of the publicly owned properties, owned by the City of Rapid City and Pennington County, recommended to be rezoned to Flood Hazard District. Currently, the property is void of any structural development.

STAFF REVIEW: Staff has evaluated the proposed rezoning as it relates to the four criteria for the review of the zoning map amendments. A summary of Staff findings is outlined below:

1. *The proposed amendments shall be necessary because of substantially changed or changing conditions of the area and district affected, or the City in general.*

The property is currently zoned Park Forest District. The recently adopted Rapid Creek Floodplain Development Policy has prompted this rezoning. Rezoning this property will provide continuity for the floodplain area. The City has submitted associated requests for rezoning to Flood Hazard District (#08RZ038 and #08RZ039) for properties located south of this property that are also identified in the Floodplain Development Policy. These requests will be heard at the December 4, 2008 Planning Commission meeting.

2. *The proposed zoning is consistent with the intent and purposes of this ordinance.*

The purpose of the Flood Hazard District as stated in the Zoning Ordinance is established for those uses having a low flood damage potential, and not obstructing floodflows. The property is located in an area west of Chapel Lane that is adjacent to Flood Hazard Districts on two sides and the proposed rezoning to Flood Hazard District on a third side. Due to the existing zoning of the adjacent properties, the rezoning would appear to be consistent with the intent and purposes of this ordinance.

3. *The proposed amendment will not adversely affect any other part of the City, nor shall any direct or indirect adverse effects result from such amendment.*

The property is located adjacent to Flood Hazard Zoning District and is owned by Rapid City and Pennington County. Flood Hazard Zoning will allow parks, recreational uses, parking areas, farming, forestry, and uses with low flood damage potential along with conditional uses for recreational activities and infrastructure requirements. There are no proposed development plans for this property. Rapid City and Pennington County have submitted this rezoning to be consistent with the surrounding floodplain. No significant adverse impacts have been identified that will result from the requested rezoning.

4. *The proposed amendments shall be consistent with and not in conflict with the development plan of Rapid City including any of its elements, major road plan, land use plan, community facilities plan, and others.*

The proposed Flood Hazard Zoning District is consistent with the Rapid Creek Floodplain Development Policy that indicates when applying Flood Hazard Zoning District on all properties, the boundaries shall be within the 100 year floodplain upstream of the Chapel Lane Road Bridge. The proposed amendment is also consistent with Rapid City's Adopted
