Ref: Request for Authorization to Seek Proposals  
Solid Waste Management Plan  
Project No. SWO09-1778/CIP No. 50749

The City of Rapid City Solid Waste Division requests authorization to seek proposals for professional services to develop a Solid Waste Management Plan for the Rapid City Solid Waste Division.

The City of Rapid City's current Solid Waste Management Plan was developed in 1992 and adopted by the City Council in early 1993. This plan has been basically implemented and has served the City well. This proposed project will update and supplement this plan to provide direction for solid waste management in the City of Rapid City for the next 15 to 20 years.

It is anticipated that during development of this plan input will be solicited from the public and elected officials. The project will be conducted under the general guidance of the City Council Solid Waste Committee.

A consultant will be selected for this project in accordance with the City of Rapid City's current Consultant Selection Policy. Consultants will be evaluated on their ability to provide all phases of the project

The estimated cost for professional services for development of the Solid Waste Management Plan is \$150,000.00. The majority of this project will occur in 2009. The project will be funded by the Solid Waste Enterprise Funds.
