RECOMMENDATION: Staff recommends that the Rezoning from No Use District to General Commercial District be approved.

GENERAL COMMENTS: This developed property contains approximately 1.74 acres and is located at 1475 Valley Drive. The property was annexed into the City limits (#08AN007) effective July 29, 2008 and subsequently zoned No Use District. Land located north, south and west of the property is zoned No Use District. Land located east of the property is zoned No Use District and General Agriculture District.

The Elk Vale Neighborhood Future Land Use Plan identifies the future use of the property as appropriate for General Commercial land uses. Currently, a storage business and a residence are located on the property.

STAFF REVIEW: Staff has reviewed this proposed rezoning for conformance with the four

criteria for review of zoning map amendments established in Section 17.54.040(D)(1). A summary of Staff findings are outlined below:

1. *The proposed amendments shall be necessary because of substantially changed or changing conditions of the area and districts affected or in the City in general.*

The property has been annexed into the City limits (#08AN007) and temporarily placed in a No Use Zoning District. All annexed lands are temporarily designated as a No Use Zoning District. The annexation of the property constitutes the changing condition requiring rezoning of the property.

2. *The proposed zoning is consistent with the intent and purposes of this ordinance.*

The General Commercial Zoning District is intended to provide areas for personal and business services and the general retail business of the city. Prior to annexation, the property was zoned General Commercial District by Pennington County. Currently, a storage business and a residence are located on the property. The storage business meets the requirements of the General Commercial Zoning District. The lower level of the residence has a phone ordering and distribution business while the upper level of the residence is used as a rental unit. The existing use of the residence on this property will be considered a legal non-conforming use. Any future development of the property will require that it conform to the requirements of the General Commercial Zoning District. Valley Drive is located adjacent to the property with access to S.D. Highway 44, located south of the property. Properties used for General Commercial purposes are located south of the property. As such, General Commercial District appears to be an appropriate zoning district for this property.

3. *The proposed amendment will not adversely affect any other part of the City, nor shall any direct or indirect adverse effects result from such an amendment.*

Access to the property will be from Valley Drive, a collector street on the City's Major Street Plan. The property is located adjacent to general commercial land uses. The property is located within and is served by the Rapid Valley Sanitary District. No significant adverse impacts that will result from the requested rezoning have been identified.

4. *The proposed amendments shall be consistent with and not conflict with the Development Plan of Rapid City including any of its elements, Major Street Plan, Land Use Plan, and Community Facilities Plan.*

The property is located adjacent to Valley Drive, a collector street on the City's Major Street Plan. The Adopted Elk Vale Neighborhood Future Land Use Plan indicates that this area is appropriate for General Commercial land uses. Rezoning the subject property from No Use District to General Commercial District is consistent with the adopted Comprehensive Plan.

As of this writing, the required sign has been posted on the property but the receipts from the certified mailing have not been returned. Staff will notify the Planning Commission at the
