MEMORANDUM

TO: Planning Commission

FROM: Monica Heller, Community Planning Coordinator

DATE: December 7, 2009

RE: Amendment #10-001R to the 2010-2014 Transportation Improvement Program

Attached for your review and approval is Amendment #10-001R to the 2010-2014 Transportation Improvement Program. This amendment has been requested by the South Dakota Department of Transportation. This amendment revises the scope of work for the existing project on the bridge on I-190 over Silver Street. The scope of work is being revised to add: 1) bolted girder splices; 2) fatigue retrofit; and 3) remove girder cover plates. The following are being removed from the scope of work: 1) epoxy chip seal; and, 2) slope protection repair. The proposed added work should extend the life of the bridge another five years. The amendment requests that an additional \$74,000 in Interstate Maintenance funding be identified in the 2010-2014 Transportation Improvement Program for this project.

STAFF RECOMMENDATION: Staff recommends approval of the 2010-2014 Transportation Improvement Program Amendment #10-001R.
