Summary:

On Friday, June 25, 2010 the CIP Committee approved the request from the Parks and Recreation Department to move \$50,000 out of P&R contingency line item into the Parkview Park Playground Project.

Recommendations:

Parks and Recreation would like the Legal and Finance Committee to approve the change in CIP budget and send to City Council for final approval.

Analysis/Background:

Bids for the Parkview Playground were opened on June 17, 2010. Bids came in about where we were expecting but in order to put in all the playground equipment (which were bid as alternates) for the project, Parks and Recreation needed to increase the spending authority another \$50,000. This money is being transferred out of Parks and Recreation contingency into the Parkview Playground project line item. In order to stay within the 30 day time line of the bids expiration date Parks and Recreation Staff needed to bring this forward as soon as possible to get approved.

Thank you for your consideration.
