Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for
Silver Street Area Utility Improvement Phase 2 – Gold Street
Project 12-2020 CIP #50828

This project is located in Silver Street between Van Buren Street and I-190 Off ramp, in Boegel Street between Mallow Street and West Boulevard North, and in Gold Street between I-190 Off ramp and Anamosa Street.

The project includes reconstruction of the streets, sanitary sewer, water mains, and storm sewer improvements.

The project is being proposed because the sanitary sewer is in poor condition, the water mains are undersized and the North Rapid Water Pressure Zone should be moved to the south, and drainage improvements are needed.

Staff proposes to hire a Consultant Engineer to be responsible for designing the project, providing bidding services, and providing construction observation, administration, and project closeout.

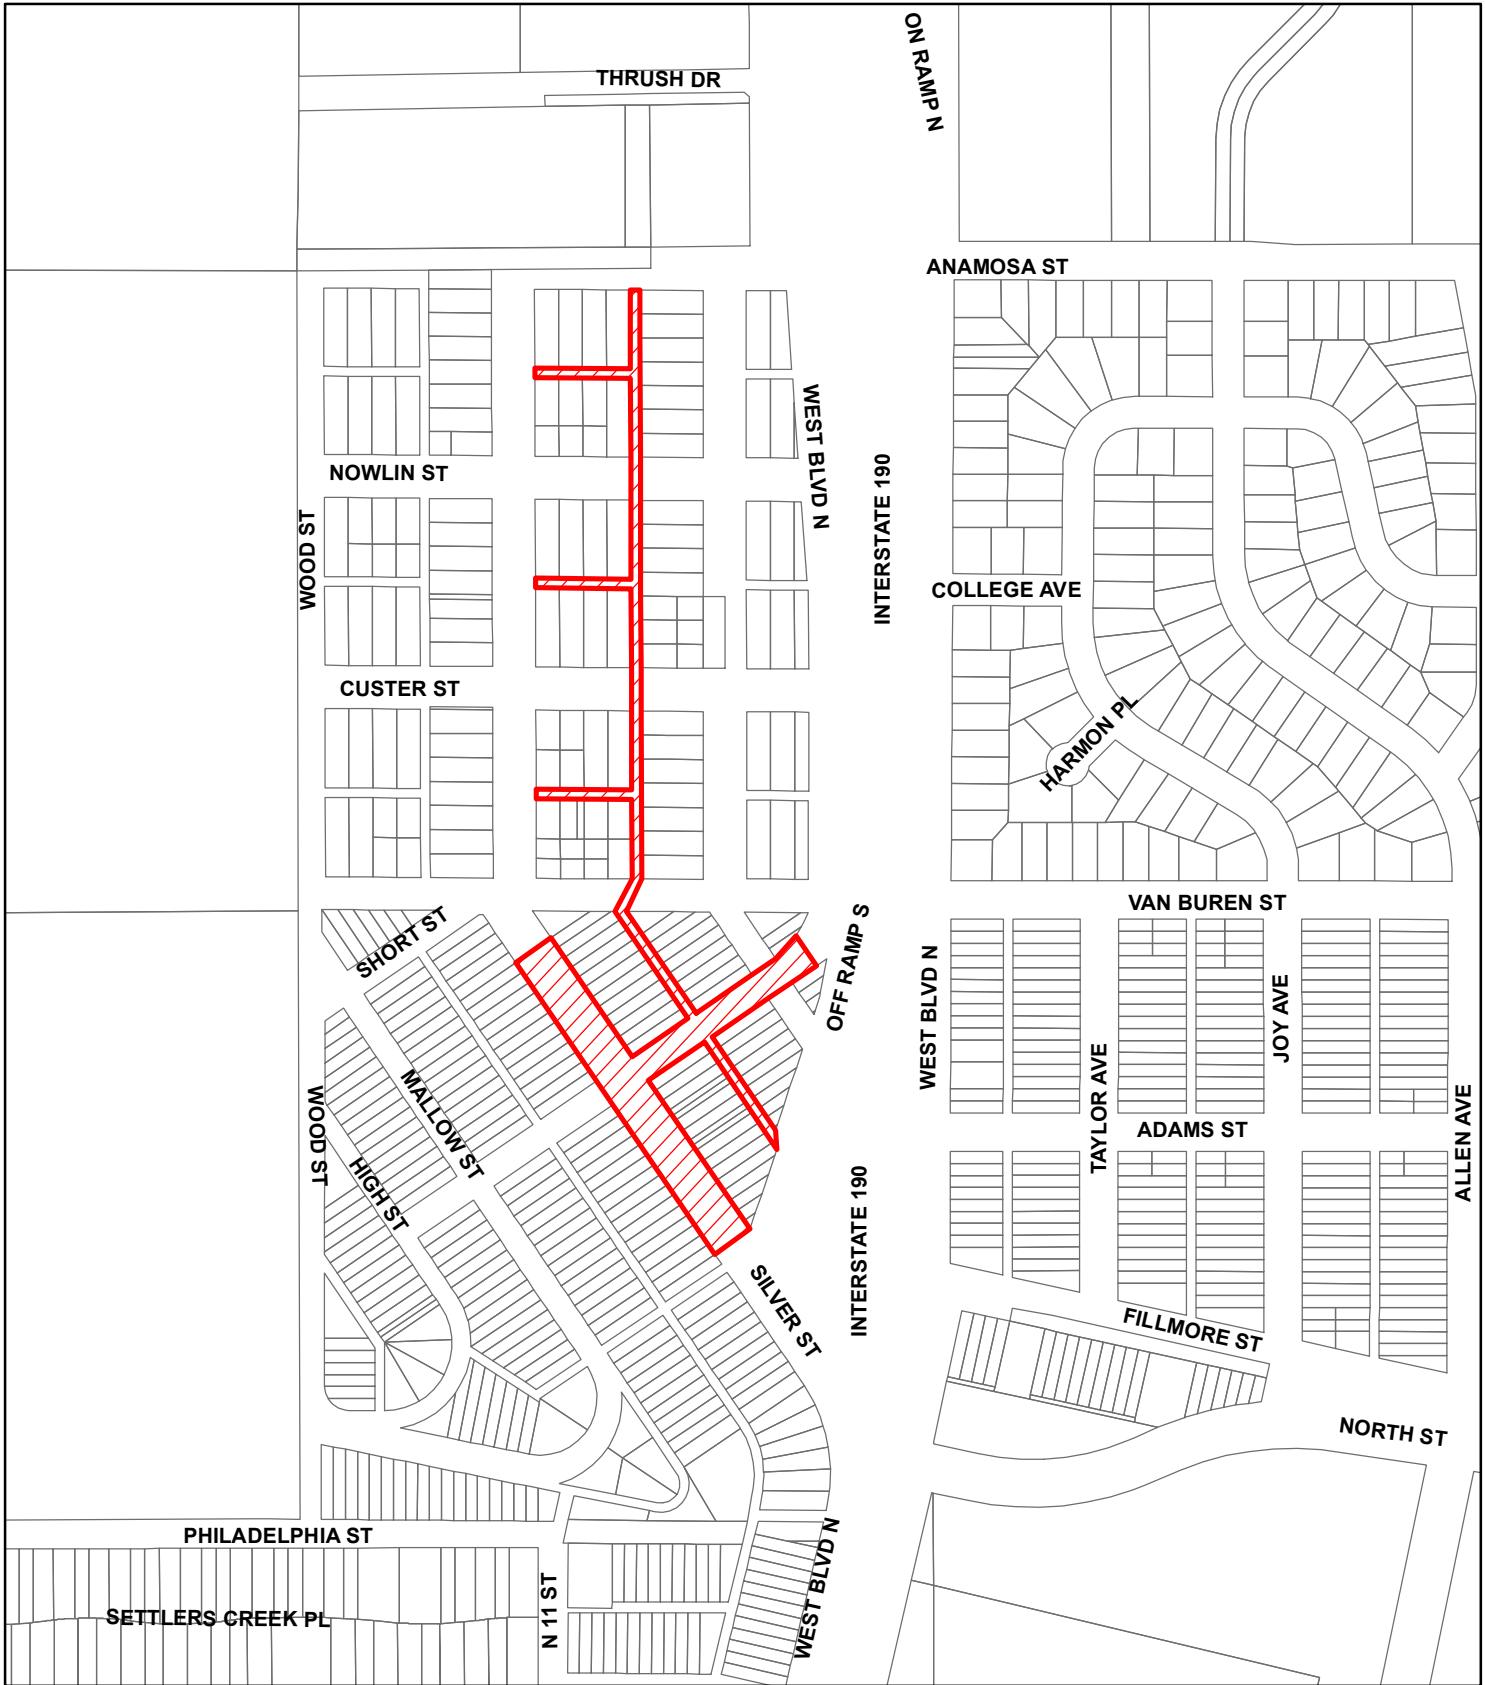

The project is funded from the Sewer Enterprise, Water Enterprise, Streets and Drainage Funds. The project is estimated to cost \$1,440,000 which includes design and construction costs.

Staff proposes to bid and construct the project in 2013.

A handwritten signature in black ink, appearing to read 'Dale Tech'.

Dale Tech, PE
City Engineer

Cc: Terry Wolterstorff, Public Works Director
