To Whom May Concern,

On behalf of people with disabilities we support Resolution No. 2011-128 which has established a policy giving consideration to people with disabilities seeking employment opportunities with the City of Rapid City.

We appreciated the efforts of the city to recognize the need and the efforts of people with disabilities seeking employment.

We feel that recognition of the need is the first step in solving the problem.

Thank you for recognizing the need and the respect you show by the resolution.

Respectfully yours,

Tom Miller
