Public Works Committee/Common Council

RE: Request Authorization to Seek Proposals for Engineering Services for
Southside Drive Sanitary Sewer Extension Project 14-2095 / CIP # 50328

This project is for the extension of a sanitary trunk sewer main from the existing terminus on Southside Drive to the Jolly Lane Lift Station. This project is needed because the lift station is nearing capacity and the southeast area of town is experiencing growth.

Staff proposes to hire a Consultant to analyze the sanitary sewer basin and design the sanitary trunk sewer main within the project area.

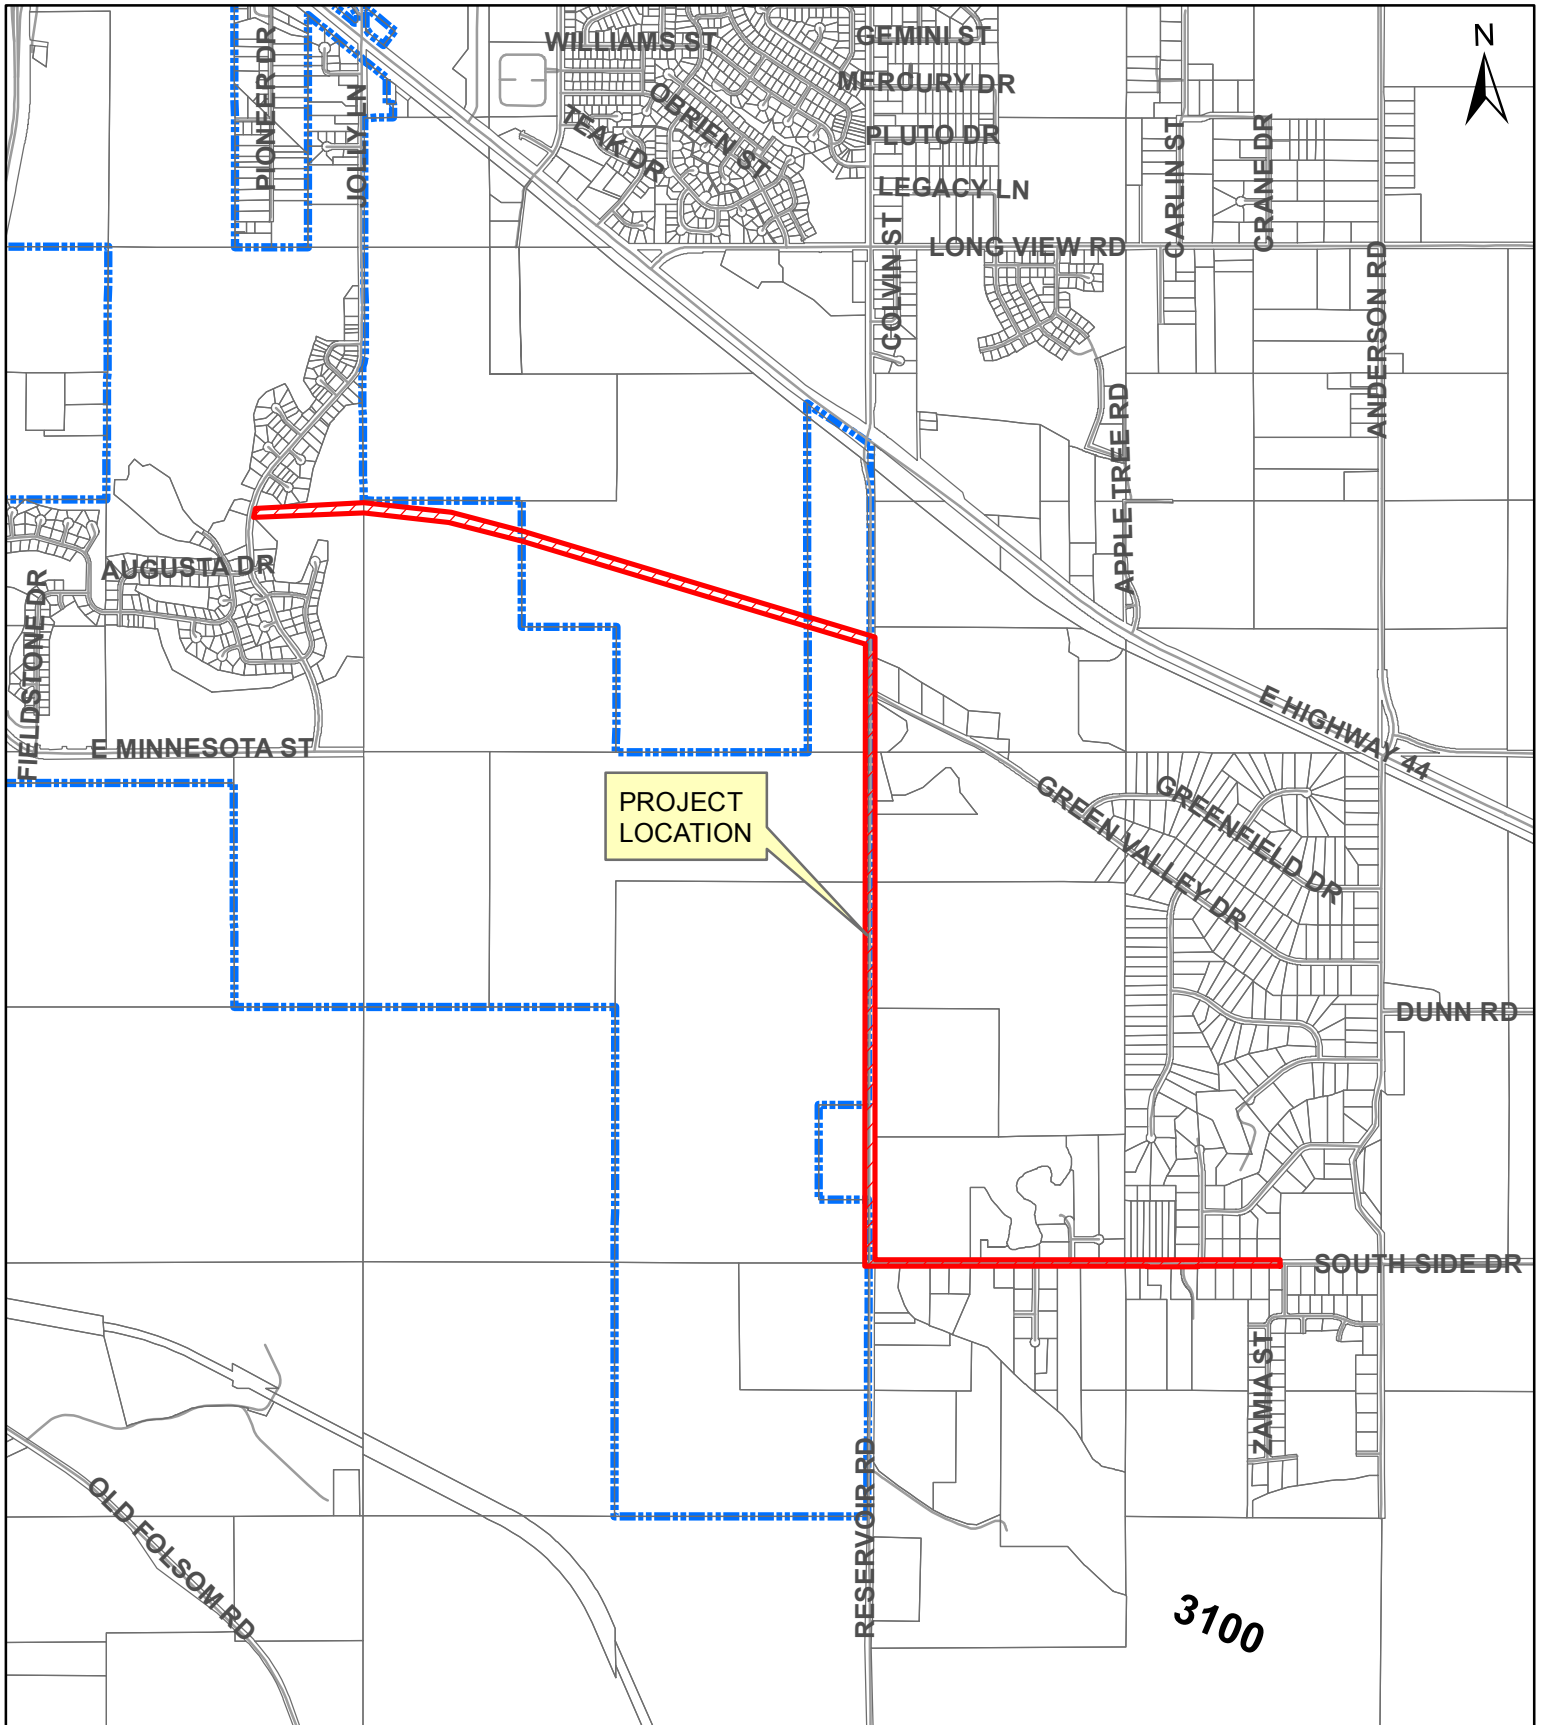

The project is funded from the Utility Support Fund. The project budget is \$4,150,000. Staff proposes to bid the project in 2014.

Dale Tech, PE
City Engineer

Cc: Terry Wolterstorff, Public Works Director
