

Floodplain Policy Recommendations Adopted by City Council Resolution, July 7, 2008.

- Maintain all provisions of existing floodplain policy.
- Install markers and photographs throughout the Rapid Creek greenway to educate the community and document the location of the canyon environment.
- Apply more stringent standards to the canyon environment upstream of Chapel Lane Bridge.
- Acquire additional property along the Rapid Creek floodplain.
- Develop and adopt a management plan for Rapid Creek.
- Implement additional protections and restrictions on construction for the publicly owned properties along the Rapid Creek floodplain.
- Adopt more stringent standards for new development in the 100-year floodplain.
- Dedicate as parkland 185 tracts of publicly owned property listed in the Policy Committee report.

*From the final report of the Floodplain Development Policy Committee,
which met from August 2007 through June 2008.*
