RE: Request Authorization to Seek Proposals for Professional Services for the  
Well No. 13 (Red Rock) Well House  
Project No. 13-2124; CIP No. 50805

The Engineering Services Division is requesting authorization to seek proposals for professional services for design and construction administration of the Well No. 13 (Red Rock) Well House. Well No. 13 was purchased from the Red Rock Development, LLC in 2009. To date the well has been used for irrigation at Red Rock Development with no capability to direct the water to the City's water distribution system. The City proposes to construct a well house and associated piping and controls that will allow the water to be directed to Red Rock Development and/or the City's water distribution system.

The project design and construction budget is \$605,000.00 which will be funded using Water Expansion (934) capital improvement funds. The project will be designed in 2014 and constructed in 2014 and 2015.

Cc: John Wagner, Water Superintendent  
Terry Wolterstorff, Public Works Director
