Environmental Planning and Historic Preservation Compliance

FEMA is required to consider the potential impacts to the human and natural environment of projects proposed for FEMA grant funding. FEMA, through its Environmental Planning and Historic Preservation (EHP) Program, engages in a review process to ensure that FEMA-funded activities comply with various Federal laws including: *National Environmental Policy Act; National Historic Preservation Act; Endangered Species Act; the Clean Water Act; and Executive Orders on Floodplains (11988), Wetlands (11990), and Environmental Justice (12898).*

The goal of these compliance requirements is to protect our nation's water, air, coastal, wildlife, agricultural, historical, and cultural resources, as well as to minimize potential adverse effects to low-income and minority populations. Any project with the potential to impact natural or biological resources or historic properties cannot be initiated until FEMA has completed the required EHP review. Any projects that have been initiated prior to EHP approval will result in a non-compliance finding and will not be eligible for funding. Please see the Manual for more information.

Award recipients must agree to consult with FEMA regarding the allocation of any patent rights that arise from, or are purchased with, this funding.

Recipients are advised that all publications created with funding under any grant award shall prominently contain the following statement: "This document was prepared under a grant from the Federal Emergency Management Agency's Grant Programs Directorate (FEMA/GPD) within the U.S. Department of Homeland Security. National Preparedness Reporting Compliance.

The *Government Performance and Results Act of 1993* (Public Law 103-62) requires that the Department of Homeland Security collect and report performance information on all programs. Award recipients must agree to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within their grant agreement. This includes any assessments, audits, or investigations conducted by DHS, the Office of the Inspector General, or the Government Accountability Office (GAO).

28 CFR Part 23 Guidance.

FEMA requires that any information technology system funded or supported by these funds comply with 28 CFR Part 23, *Criminal Intelligence Systems Operating Policies*, if this regulation is determined to be applicable.

Freedom of Information Act (FOIA).

FEMA recognizes that much of the information submitted in the course of applying for funding under this program or provided in the course of its grant management activities may be considered law enforcement sensitive or otherwise important to national security interests. While this information under Federal control is subject to requests made pursuant to the *Freedom of Information Act* (FOIA), 5 U.S.C. §552, all determinations concerning the release of information of this nature are made on a case-by-case basis by the FEMA FOIA Office, and may likely fall within one or more of the available exemptions under the Act. The recipient is encouraged to consult its own State and local laws and regulations regarding the release of information, which should be considered when reporting sensitive matters in the grant application, needs assessment, and strategic planning process. The grantee should be familiar with the regulations governing Sensitive Security Information (49 CFR Part 1520), as it may provide additional protection to certain classes of homeland security information.

Protected Critical Infrastructure Information (PCII).

The PCII Program, established pursuant to the *Critical Infrastructure Act of 2002* (Public Law 107-296) (CII Act), created a framework which enables members of the private sector, States, local jurisdictions, and tribal nations to voluntarily submit sensitive information regarding critical infrastructure to DHS. The Act provides statutory protection from public disclosure and civil litigation for CII that is validated as PCII. When validated as PCII, the information can only be shared with government employees who complete the training requirement, who have homeland security duties, and a need to know. For additional information about PCII or the accreditation process, please contact the DHS PCII Program Office at pci-info@dhs.gov .
