Subject: Request for Sanding and Street Sweeping on Serendipity Lane

To: Mr. Dale Tech

Thank you for meeting with me yesterday to discuss the possibility of Chapel Lane Streets being brought up city standards and thereby becoming eligible for city services including snow removal, sanding and street sweeping. Thank you also for looking at the history of Serendipity Lane. When it was all said and is clear that no amount of engineering and construction is going to be workable and cost effective for the entire community.

So Chapel Lane Village will continue to contract removal of snow from our streets and to sand them in the way that we do. Rather than simply drop this very important issue though, we need more time to consider other approaches to the problem.

Therefore,as we discussed, I am requesting that this agenda item, #PW022514-27 which is now before the City Council for next Monday night, March 3rd, as referred by the Public Works Committee with "no recommendation" be tabled until other options can be considered for the public safety of our Association.

If there are questions or other issues with this request, please call me at 718-0356.

Respectfully yours,  
Ron Bunnell, President  
CLVHA,Inc.
