**Subject:** Serendipity Lane: Icy road

Dear Sir,

Please refer to a letter you received from Ron Bunnell, president of the Chapel Valley Association. Serendipity is my where my home is located. It is a very short street and would take SECONDS for our city (as I AM a tax payer of this great city) trucks to cover the area with salt as they head up Chapel Lane Road during the winter months. This street is the only hilly one in the development and has several residents who struggle with the slippery conditions during the winter months as it has been impossible for our association to find a company that will come for this stretch of road.

Thank you for your time. Thank you for your consideration in the matter. Thank you for your service to Rapid City.

Sincerely,  
Patricia Braun
