

Police Department Requirements

The Police Department has transitioned to Zuercher Technologies over a year ago for all Computer Aided Dispatch and officer reporting. Part of the agreement with Zuercher was to create interfaces to all other programs that the Rapid City Police Department uses. These have been created but the interface for media files have proved to be inefficient and often required double entry of information. The Police Department would like to convert the media file components to the Zuercher Media Server software. This would allow for media to be entered directly into the Zuercher system without relying on the secondary systems. Zuercher has provided a quote for this system but the quote does not include a physical server.

In addition to the physical server for the Zuercher Media Server, the Police Department also needs to replace two additional servers. One functions as the server for the evidence division. The other server is the domain controller and main file server for the Police Department. Both of these servers are several years old and are in desperate need of replacement. In addition to the hardware, the software must also be upgraded. The update for these servers was put on hold due to the Zuercher purchase over the last two years but both are experiencing hardware failures and the update cannot be delayed until the next budget year.

Totals

Zuercher Media Server software and consulting	\$9,180
Zuercher Media Server hardware approximate	\$9,000
Server Hardware Replacement	\$9,101.76
Server Software for new hardware from state contract	\$1,145.72
Total	\$28,427.48

Priscilla Downie
Records Supervisor
Rapid City Police Department
300 Kansas City St.
Rapid City, SD 57701

Dear Ms. Downie,

Zuercher Technologies is pleased to provide this proposal to the Rapid City Police Department (RCPD) for our media server addition to Zuercher Suite. As a follow up to our recent discussion, we trust this proposal will provide the RCPD with the information necessary to move ahead with this project.

- The new media server functionality will fully integrate with the RCPD's Zuercher Suite system.
- This additional functionality is covered under the same comprehensive maintenance and support plan which applies to the rest of the RCPD's Zuercher Suite solution.

We look forward to extending your Zuercher Suite solution with this additional functionality. Please let us know if you have any questions.

Sincerely,

Zac Bradish
Midwest Regional Account Manager
