RE: Resolution 2015-12

Dear Mayor and City Council Members,

The Rapid City Police Department is supportive of the Rapid City Department of Fire and Emergency Services and the Pennington County Office of Emergency Management's efforts to establish an All-Hazard Incident Management Team. We have found on many occasions that working in a collaborative effort to address public safety issues have been beneficial for the community. Formalization of this concept in this manner will allow Public Safety Agencies to have the most effective response to a mass disaster such as the devastating flood of 1972.
