**Subject:** Rezoning at 310 Fairmont Ave

Hello,

We just recently learned about the propose rezoning for MG Oil at 310 Fairmont Ave. Our home is not within the 250 feet so we did not receive a letter about it. We have heard that it was turned down by the zoning commission and now Mr. Erickson is taking it to you at the city council. There is no way that a casino should be allowed in this area. For one thing the service station itself (both prior to it being 24hrs and now) is robbed on a regular basis.

We suggest you talk to some of your constituents in this area before the June 15 meeting. We have talked to at least 5 of our neighbors who believe that rezoning would only bring more trouble to the area. If you are not familiar with the area, we would like to point out that across the street from the property is an assisted living home.

If you would like to contact us we would be more than happy to sit down with any or all of you on the matter. We are aware that even if we go to the meeting we would not be allowed to express our views.

Thank you

Earl and Patricia Koch
