Subject: FW: Moratorium

Staff was directed to meet with members of the former Second Floor Committee regarding the Public Works Committee amendment to the resolution placing a moratorium on certain lot line adjustment plats until such time as an amendment to the subdivision ordinance could be discussed and brought forward to the Planning Commission and City Council. It appears that the revised resolution to be discussed at City Council on Monday meets the desires of the Second Floor Committee members. Staff will convene a meeting next week to begin work on the amendment to the subdivision ordinance.

Subject: Moratorium

Brett, as we discussed earlier today, Janelle is out of town and I was not able to connect with Bill.

The language suggested at the PW meeting is fine and if you'll let me know a date and time, we'll get the group together next week and work to get this resolved as quickly as possible. Please understand that we do agree with you in principle that the loop hole needs to be close. Good catch on staffs part.

Thanks Pat Tlustos
